HOW TO USE IT

Use daily, morning and night.

Using the spatula side of the applicator, remove a small amount of product from the jar. Evenly distribute between your ring fingers. Using your ring finger, gently tap around the eye area in an outward motion to avoid stretching the delicate skin around the eye. Glide the eye roller around the eyes in an upward and outward motion until fully absorbed. Follow with any MONAT moisturiser.

Healthy Skin Tip: Apply sunscreen 15 minutes before heading outdoors.
