DID YOU KNOW?

There is a correct way to use dry shampoo!

Only apply dry shampoo to areas that are oily, not the entire scalp. Hold the bottle twenty centimetres away and aim directly at your roots. Spraying the product too close to your scalp can leave a residue that is hard to disguise, especially on dark hair. Let the dry shampoo sit for a few minutes so it can absorb the oil, then massage it into your scalp with your hands. If you applied too much, run a brush or a comb through your hair from roots to ends to disperse evenly.
